

Christiaan Opperman

Computer Scientist

I am a multi-talented computer scientist who has consistently overcome numerous obstacles to get where I am today. I have a very positive attitude in life and know that I can achieve most tasks by having a positive attitude and by working hard. This has always stood in me good stead. Negativity sets you up for failure, before you have even started a task.

Gaming.

Reading - Sci-Fi, Thrillers, Fantasy, Science, Poems.

Fly fishing.

Handy work - DIY projects

Cooking.

Knitting.

Additional Information

I have dyslexia and dysgraphia, but have learned various ways to cope with the challenges that arises from this.

Dyslexia means that I have a slower than normal reading speed and dysgraphia makes spelling difficult for me.

I went to a main stream government school and achieved four distinctions in my final school year.

I use computer software to assist me with reading and writing.
